

April 4, 2013

Dear Cancarb Business Partner:

REACH Only Representative

To continue compliance with the European Union's REACH legislation, Regulation (EC) No. 1907/2006, Cancarb Limited is pleased to announce the appointment of WIL Research Europe B.V. as its Only Representative for Carbon Black (EC no. 215-609-9).

WIL Research Europe B.V replaces Cancarb's previous Only Representative Global Energy Investments S.a.r.l.

Using WIL Research as our only representative will allow us to continue to relieve the EU importers within our supply chain from their REACH registration obligations as they will be regarded as downstream users of the Only Representative.

Cancarb is committed to meeting all its obligations under REACH to assure continuing availability of our products in the European market.

For your records the details for WIL Research are listed below.

WIL Research Europe B.V.
Hambakenwetering 7, P.O. Box 3476,
