

June 25, 2008

Dear Cancarb Business Partner-

To comply with the European Union's REACH legislation Cancarb Limited is pleased to announce the appointment of our sister company Global Energy Investments S.a.r.l. (GEI) as our "Only Representative."

Using GEI as our only representative will relieve the EU importers within our supply chain from their REACH registration obligations as they will be regarded as downstream users of the only representative.

Cancarb is committed to meeting the obligations under REACH in order to assure that our products can continue to be imported and thus remain readily available in the European market. You can be assured our efforts are active and ongoing.

To meet the first stage of the REACH legislation GEI has already pre-registered as the European based representative for Cancarb's Thermax grades of thermal carbon black. We are now preparing for the next stage, the SIEF (Substance Information Exchange Forum) which will begin in January 2009.

We also continue to actively prepare to register our products via GEI in order to meet our registration deadline of November 30, 2010.

For your records the details for GEI are listed below.

Global Energy Investments S.a.r.l.
c/o AIB Administrative Service Luxembourg Sa.r.l.
16, Avenue Pasteur
L-2310 Luxembourg
pH: +352 26 12 18 1
Contact: Aidan J. Foley

If you have REACH related questions please direct them to your Cancarb marketing manager.
Thank you.

Best regards,

Dave Petrie
