

THERMAX^{®*}

1,000kg or 2,205lb FIBC SUPER SACKS

Specifications

Load Length	Load Width	Load Height	Lift Straps	Spout Diameter	Spout Length
114 cm	114 cm	117 cm	25 cm	35.5 cm	63.5 cm
45"	45"	46"	10"	14"	25"

Our super sacks are heavy gauge polypropylene Flexible Intermediate Bulk Containers (FIBC), incorporated with UVA and UVB fabric protection. They are weather resistant and labelled on three sides for easy identification.

Internal Baffles ensure the bag stays square making it easy to handle and store. A top cover protects the bag from the elements as well as potential damage due to stacking.

NOT RECOMMENDED FOR OUTSIDE STORAGE

Available for the following Thermax[®] grades:

N990
N990UP Ultra Pure
N907 Stainless

Full 20' ocean container = 20 pallets = 20,000 kgs
Full truckload = 19 pallets = 41,895 lbs
